## **INQUIRY INTO GREYHOUND RACING IN NSW**

I do not support greyhound racing and request that it be reviewed and regulated if not stopped altogether. This is a cruel industry where animals are bred for a purpose and then discarded in the most horrific manner when they are no longer needed. There is a lot of effort out in the save the grey hounds that are no longer needed, but the numbers are just too high. And they are beaten to death , or taken to fields and simply shot and left to rot... Something needs to urgently be done about this industry..
