

INQUIRY INTO GREYHOUND RACING IN NSW

Name: Mr Leroy Della Casa

Date received: 28/10/2013

date 28/10/13

Submission Heading..... waste of and accountability of finances

Relevance/ Terms of Reference....Term H The capability and performance of Greyhound Racing NSW (GRNSW) and governance of the industry

GRNSW is an autonomous body answerable to no other authority; hence I believe the performance, structure and power of GRNSW has become very questionable over time. For example GRNSW structure is top heavy resulting in heavy and unnecessary administrative costs. Props up the gardens racetrack by injecting over a million dollars to get them out of debt, which was caused by bad financial management in the first place and with no certain financial return from that investment." They choose their own integrity officer who has no powers other than report findings to GRNSW; IE they are his boss (The reason for Mr LANDA'S resignation from that position). I believe there should be a government body set up to oversee GRNSW'S performance", structure. financial performance and conduct

In the long term this would benefit participants, the welfare of industry as well as increased prizemoney.

Yours Sincerely
Leroy Della Casa
L. Della Casa
