

INQUIRY INTO SAME SEX MARRIAGE LAW IN NSW

Name: Name suppressed

Marriage between one man and one woman is the fundamental basis of a society which ensures that children are raised to their full potential. Any watering down of this absolute will undermine the foundation of strong and healthy family relationships. The result for society as a whole can only be disastrous. Homosexuals may have civil union if they wish, but that is not marriage and nor can it ever be, because a family cannot be born from such a union.
