Dear Director,

To Whom It may Concern

These dogs are so gentle, as it is, I think that greyhound racing is disgusting. I worked a few months at a vets that treated greyhounds, the cruelty was so apparent that I stopped working there. As for exporting them and using for racing in other countries is diabolical.

ALL animal exports are bad - when are we going to become a nation of animals lovers.

Please start by stopping this at least

best wishes

Zoy

Sincerely,

Zoy Crizzle
