It is 2013 only minority of church goers care and have homo phobia, rest of the population couldn't give a dam who marries who as marriage between 2 people is personal anyway,, Almost racist now that the bill does not get passed .. Love is love so about time the Bill gets a yes pass as there are many happy couples of all shapes, sizes, colors, ages and sexes living together ... Way to many broken "RIGHT SEX" families and single mothers just having kids to man men .. kids growing up lost .. just cause you can have kids a a books says thats only way doesnt make it right take a good look around all broken homes kids in need ... So bout time the rules were changed to unite everyone as one and on same page ... Like said LOVE is LOVE .. oh by the way i am not a gay person writing this :)
