THE TRANSPORT NEEDS OF SYDNEY'S NORTH-WEST SECTOR

Name: Ms Caryn Bosco

Date received: 15/10/2008

Dear Sir/Madame,

I am writing to express my anger and frustration at the lack of public transport for the hill area. The traffic problems on our roads is becoming more and more impossible.

It is really unfair that we have no train line and have to pay the highest tolls, with no rebates, just because we live in the hills district.

The lack of public transport means that I hardly ever go to the city or many other areas as it is impossible to get there in any reasonable time frame or at a reasonable cost.

My daughter has just resigned from her part time job in the city because it was taking her over an hour and a half to get to work and the same amount of time to get back, it

is just ridiculous that we live not that far from the city but have to take that long to get there.

The Government has to act NOW and provide a fast and reasonable costing public transport system to the hills district. We have been promised for 30 years something will

be done! The northwest expansion should not be allowed to go ahead unless a train line is provided otherwise the area will just come to a standstill as it does most days now!

I hope you will consider the quality of life and productivity that is being destroyed in our area because of the lack of public transport and act now!

Thankyou Caryn Bosco (concerned resident of the hills district)
