THE TRANSPORT NEEDS OF SYDNEY'S NORTH-WEST SECTOR

Name: Ms Juliana Long

Date received: 2/10/2008

Every morning I take 20 - 25 minutes to drive to the nearest rail station Pennant Hills which is just 5 Km away from my home. That is because of the traffic jam. There are so many working class people living in the hill who need public transport to travel to city.
Rail line can get a lot of cars off the road. It has benefit to the environment.
