Sir /madam

I only hope that the inquiry into privatisation is done in a unbiased way and that all facets for the argument for and against privatisation are brought to the table .As a correctional officer i feel that we are portrayed in a less than positive way, I am very proud.to be a correctional officer and do my job to the best of my ability along side my fellow colleagues. It is hard to swallow when our commissioner belittles us every second he gets with less than factual information on the supposed wrong doings that we the correctional officers of NSW are accused of doing. I only ask that those listening to what i have wrote listen to the facts against privatisation rather than the misconstrued stories that are presented to you. Marcus Aurilus once said "look at each thing as it is of itself rather than what its perceived to be".
