

INQUIRY INTO GREYHOUND RACING IN NSW

Name: Name suppressed

Date received: 16/10/2013

Partially Confidential

My subjective opinion is simply that greyhound racing is immoral and should be illegal and cast aside as animal cruelty. Objectively speaking - it would seem that trying to outlaw greyhound racing would be as fruitless as telling the public to ride bicycles because of carbon emissions.

So if the sport cannot be outlawed (which would be my first preference), perhaps it is time there were stricter legislation around greyhound racing. Some suggestions -

- Control the breeding of greyhounds
- No doping
- Prosecution in cases of animal cruelty
- Financial incentives to reduce the amount of greyhounds euthanized each year after their talents have been used for profit
- Cessation of greyhound export to countries without adequate animal cruelty laws
- Better data provision on Greyhound euthanasia, births, injuries etc.
