INQUIRY INTO SAME SEX MARRIAGE LAW IN NSW

Name: Name suppressed

Date received: 11/02/2013

Partially Confidential

Marriage should be between one man and one woman, that is the definition of marriage.

Re-define the meaning of marriage needs a lot of discussion with detail analysis of what is the flow-on impacts on family set-up, raising of children and how the society impacts.

This should be an issue to be discuss in Oz as a whole, rather than looking at it in State level.

In addition, I think there are more important issues to be addressed by your government, rather than this one. Priority should be made appropriate.
