INQUIRY INTO GREYHOUND RACING IN NSW

Name: Ms Kylie Pels

Date received: 6/11/2013

Dear Director,

To whom it may concern,

I am appalled at the state of the greyhound industry. The allowances for people to drug these dogs with substances that no horse or other industry is subjected to such as cocaine and Viagra. I am surprised that this is allowed to even take place!!!! When these dogs have been subjected to drugs and have 'served their purpose' (racing till they get too old or don't perform anymore) they are not rehomed or euthanised humanely but are bludgeoned to death which no animal should be subjected to. How dare these owners be allowed to do either of these. The horse industry has such heavy drug laws why not the dog industry?

These animals should be rehomed and if absolutely necessary put to sleep not bashed by a blunt object!!!!

Please reconsider these laws and investigate why drugs are used as this is a form of cheating also!!

I trust you will do the right thing.

Kylie

Sincerely,

Kylie Pels
