Subject: Ethics classes

I can't believe we are having this argument again and as a result of one man who thinks he has all the answers and receives a very small proportion of the NSW vote. As someone who will one day be cared for, serviced, managed etc by the children of today, I want them to be able to think and understand the ethics of what they are doing in their work place as well as personal life. The NSW Government should not be allowed to take away the choice that parents and their children make about their education.
