Go Adrian Piccoli MP

I wish to advise you that my fellow campers, fishermen, horse riders & people with dogs are totally against the sell off or takeover of travelling stock reserves by National Parks. They totally disregard the rights of Australians to free camp, fish and enjoy their animals and camp fire cooking. Clubs need access to water to restock with fish. National Parks have a bad record of restricted activities or totally lock people out and the danger of fuel build up and fires. In drought travelling stock need them & Grey Hound's use them in their travels. National Parks take away jobs & don't pay rates. No more land in National Parks.

Yours sincerely
Lawrence Newell
