

INQUIRY INTO SAME SEX MARRIAGE LAW IN NSW

Name: Name suppressed

Date received: 16/02/2013

Partially Confidential

I strongly support the definition of marriage as that relationship between a man and a woman, for the protection and raising of children. The family unit is the basis of our society and community, and all children have the right to be raised by their father and mother in the family unit. All societies and cultures through the ages have recognised and nurtured this unit. Other homosexual relationships are recognised by law, but are not to be confused with man + woman marriage.
