Summary

Submission to Cross City Tunnel lodged by Stephen Kozicki

I run an international business development and export company from North Sydney. As a result of my business I need to travel to both the domestic and international airport at least 2 -3 times a week for air travel.

During the period when the cross city tunnel was free, the trip to the airport took between an additional 20 -30 minutes on each journey from North Sydney.

I wish to give evidence not on the incompetence of the Government, but the extraordinary cost that this is having on all businesses.
