Parliamentary Inquiry

It is with great concern that I write this email, once again the 'Same Sex Marriage' thing has raised its ugly head.

What would our world be like if all children were denied the right to have both a mother and father, they would not have role models to build their lives on.

If it were possible for two women or two men to conceive and produce another human being then God would have put that in His Word (The Bible) but as you and I know this is not possible.

When the first fleet set foot on Australian soil one of the first things they did was to give thanks to God for His goodness, they saw that without God in a country it was not worth having.

You can also look at the fore fathers of the USA and again you will see that they all saw the need to have Politics and Religion (The Bible) working together.

A couple of quotes:

Noah Webster - History of the United States "Advice to the Young"

...the moral principles and precepts contained in the Scriptures ought to form the basis of all our civil constitutions and laws... All the miseries and evils which men suffer from vice, crime, ambition, injustice, oppression, slavery and war, proceed from their despising or neglecting the precepts contained in the Bible.

Another from George Washington - The will of the People, Readings in American Democracy.

'...And let us with caution indulge the supposition that morality can be maintained without religion...reason and experience both forbid us to expect that national morality can prevail in exclusion of religious principle.'

So maybe its time to get back in touch with God, read the Bible and see where our nation and state has gone astray.

Each of us will have to give an account for our lives, this is serious.
