A Polite and Respectful Reminder To our State Politicians.

From Pastor Joe Armstrong - Christian Minister, 24 years Ministry Service to this Nation

Australia was founded upon Christian values, principles and instruction. Yes, there are some aspects of the Holy Scriptures, Biblical interpretation that can be debated and disagreed upon. After some nearly 25 years of Ministry experiences I have found these theological, debatable issues do not impact upon how a NATION and it's Families that make up that Nation are constructed.

The Holy Scriptures clearly define marriage as the act of union between 1 x man and 1 x woman. That's it! No debate.

If you, as Politicians, want the benefits of a CHRISTIAN Country then perhaps it's high time you actually stood up for the CHRIST that made it so! Please, aside from showing logic, morality and sensibility, how about you show us a bit of BACKBONE - something that our Founding Fathers had NO shortage of. How long will the unsustainability practices of minority groups lead us around by the nose?

To be brutally honest - As someone at the coalface of our communities, I'm finding that the genuine, average Aussie has had a gutful of political correctness...

Whether you believe the Bible or not - I would draw your attention to 2nd Corinthians Chapter 5, verse 10. Please, be very careful indeed.

I trust you will act responsibly and in accordance with Federal voting of 2:1, and thus veto the completely unsustainable same-sex marriage nonsense - because to any genuinely thinking person, that's all it is. Nonsense!

Respectfully,  
Pastor Joseph Armstrong
