

INQUIRY INTO GREYHOUND RACING IN NSW

Dear Committee

I hold deep concerns regarding the greyhound industry and its treatment of greyhounds. Accurate figures around numbers of dogs bred and killed are needed urgently to more accurately ascertain a real insight into the situation. Currently the public are not truly aware of the plight of these poor animals and what they ultimately endure in the name of 'sport'. I do not agree that more funding should be made available to encourage this inhumane and wasteful 'sport' in our country.
