

INQUIRY INTO SAME SEX MARRIAGE LAW IN NSW

To the Enquiry into Same Sex Marriage.

Dear Sirs,

Same sex marriage is an oxymoron.

I do not object to people living together in a deviant relationship if that is their wish.

However, MARRIAGE, has always had the meaning of a procreative relationship between a man and a woman. And so it should remain.

Those persons who have homosexual ties should perhaps coin a different term to describe their deviant relationship instead of borrowing the term used for centuries by the billions of traditionalists in the worlds population.

Thankyou

Roy Sims
