

INQUIRY INTO SAME SEX MARRIAGE LAW IN NSW

Name: Mr John Parton

Date received: 15/02/2013

Federal members of parliament recently listened to their electorates and based on feedback from their electorates the redefining of marriage bill was soundly defeated. No member of state parliament was elected with any mandate concerning the definition of marriage and it is a gross breach of trust that any bill concerning it would be introduced into state parliament. The definition of marriage is contained in Commonwealth Legislation and the states have nothing to do with it. I am opposed to the introduction of any bill relating to the redefinition of marriage and will vote against my member should my member speak for redefining marriage
