**INQUIRY INTO THE BUILDING THE EDUCATION
REVOLUTION PROGRAM**

Name: Mr John Maloney

Date received: 6/05/2010

The inflated costs of work being done by sub-contractors.

\$2 million for 3 classrooms that don't have an IWB when finished! Who pays for them?

Little flexibility in what happens to old buildings.

Principals who wanted to oversee their own site being told how it wouldn't be a good idea. Why couldn't those who did so been given (their school) the money that they would have saved, so that they could spend it on something else for their school.

The BER is/has been good but how much better could it have been?
