**INQUIRY INTO MANAGEMENT OF PUBLIC LAND IN
NEW SOUTH WALES**

Name: Mr Matthew Vasilescu

Date received: 2/08/2012

To the Government,

As a motorcycle rider I have chosen recently to take my recreation to our fantastic National Parks and State Forests. This kind of riding suits myself and the small group of people who enjoy riding on these kinds of roads in these kinds of places. There is less traffic and greater enjoyment of the outdoors, we also enjoy riding to camp overnight in these places. For these places to now be closed to public use of registered and taxed motor vehicles and motorcycles would be a great injustice. The places you would generally see people using recreational vehicles would not be the same places you would see people bush walking as they are usually hundreds of kilometers away from major cities and towns. To close these public places to any and all tax payers would either force people into places even further a field making it more dangerous should the unthinkable happen and some get injured. Please I ask you to consider all users and not just people who like to go bush walking 20 kilometers away from their front door.
