INQUIRY INTO USE OF CANNABIS FOR MEDICAL PURPOSES

Name: Name suppressed

Date received: 3/12/2012

Partially Confidential

I personally suffer from numerous medical conditions that could be aided/alleviated through the use of medical cannabis. The fact that this substance is illegal makes my life incredibly difficult and i know for a fact that this is the same for many other people. Australia needs to step up and show that we are at the forefront of medical treatments and show the world that change can work and is beneficial. It is time to stop this pointless war on drugs and start moving forward into the future.
