INQUIRY INTO GREYHOUND RACING IN NSW

Name: Name suppressed

Date received: 16/10/2013

Partially Confidential

I disagree with the Greyhound Racing industry because it breeds many thousands more animals than are needed for racing, simply in pursuit of a win. The greater percentage of these animals are killed because they are surplus to needs, not fast enough, injured during training.

This is a disgrace. Greyhounds are beautiful, even tempered and loving dogs who deserve to be treated as such.
