**INQUIRY INTO THE PRIVATISATION OF PRISONS AND
PRISON-RELATED SERVICES**

Name: Mrs Heather Graham

Date received: 24/02/2009

I really wish to voice my opinion on privatizing prisons. This is not a business and should not be treated as such. All you have to look at the US to see how well this system has worked. You would have to be a complete fool to believe that it works there.

The prisons there are on the stock exchange and the more people that are in them the higher the stock. Does this sound like it is conducive to rehabilitation? I think not.
