

INQUIRY INTO SAME SEX MARRIAGE LAW IN NSW

I strongly oppose any proposed amendment to the definition of marriage. Legally it is a federal issue and any change should be put to the people by referendum. Families are the foundation of our society and any change would have serious consequences. Lastly, our bodies show how the sexes are meant to relate in a union. So even if govt's recognise SSM, SS couples bodies will always remind them they actually are not equal at all. Any change is illogical, selfish and arrogant.
