i wish to make a submission into this inquirey i am a concerned resident of Moree which has had on going problems with our air services since brindabella airlines has taken over on many occashons are flights cancelled without prior notice leaving passengers strandard at sydney in on instance a elder was strandard in sydney for over 48 hours and in the end he had to catch a train back to moree another nine hours sitting this man was also a dibetic and only had enough medication with him for his orginonal journey also with a number of other people in moree have been effected by a number of visiting medical services not being able to get to moree because of flights being cancelled this has effected the service delivery to the moree community. the decison to bring brindabella to moree was a decison of the state goverment without proper consultation with the residents of moree i find this disracefull and unfair to us that we have been treated like second class citizens and that corospondence to the Minister was never followed up i have spoken to the Hon Rick colless office and would call on this enquirey to come to moree and hear from us directly with our concerns
