

INQUIRY INTO SAME SEX MARRIAGE LAW IN NSW

Name: Father Ronan Kilgannon

Date received: 15/02/2013

If the government changes the definition of marriage then I shall return my registration as a government marriage celebrant and have nothing more to do with registering "marriages" for the government. I would hope that the Christian Churches together would do the same. i would still conduct marriages in church but if the couple chose to register their marriage with the government they would need to go through the governments form of marriage in a registry office as well
