

INQUIRY INTO SAME SEX MARRIAGE LAW IN NSW

Name: Ms Lanil Gunasekara

Date received: 6/02/2013

Same sex marriage is not natural for simple fact that two women or two men cannot produce children.

Furthermore a child needs the sociological input from a father and a mother. This can never be established through same sex parents. It will only end up by children brought up by same sex couples having social problems and incorrect family values.

I totally disagree to same sex marriages. ,arrive has been and will always be between a man and a woman for this is the pattern the Author of marriages, God, planned marriage to be.
