

THE TRANSPORT NEEDS OF SYDNEY'S NORTH-WEST SECTOR

Organisation: Eden Institute of Plastic and Cosmetic Surgery

Name: Mrs Debbie Edinburg

Date received: 14/10/2008

Anyone who has say on the M2 in peak-hour is aware of the problem! It is obvious that the infrastructure of roads, and specifically, Public TRansport, has not kept up with the population growth.

WE run a specialist Medical Practice. Patients have to drive, as public transport is so unreasonable. In fact, some of them look elsewhere for treatment. We often have patients arrive late because access roads are so clogged.

Thank you for your time.
