INQUIRY INTO GREYHOUND RACING IN NSW

Dear Sir,

I am writing to express my grave concerns about the way in which greyhounds are treated by The Racing Fraternity. Too many are entrained & kept & bred in sad conditions.

The Racing Industry must take responsibility for the state of affairs we find today.

It is an indictment of our society with its greed, concern for monetary gain & too little regard for animal welfare.

Please address this appalling state of affairs. In these matters we are not compassionate and civilised - to use helpless animals with no voice and then throw them away & expect those with compassion for animals to pick up the pieces. It's unethical.

Thanking you
Victoria Hannan
