## **INQUIRY INTO SAME SEX MARRIAGE LAW IN NSW**

**Name:** Ms Donna Reilly

As a mother I would like to express my opinion about children growing up with a male and female parent. There are so many differences in how a mother and a father parent, my children benefit so much from both approaches in order to develop their identity, skills, leisure and character. Marriage should remain a union of a man and woman for the benefit of our children and the stability of our society. I don't agree with NSW going out on their own, this is a federal issue,
