INQUIRY INTO GREYHOUND RACING IN NSW

Name: Mr Rick Mayne

Date received: 6/11/2013

We were honored in February this year to be approved by 'Friends of The Hound' to adopt a rescued Greyhound named Petal from a Vet surgery in NSW. She was there to be euthanized because her trainer deemed her worthless because she didn't want to chase the lure. Greyhounds are a dogs just like any other who gives and loves affection, snuggles up to you and wags its tail madly when you arrive home. It sickens us that any government body can support an industry that is driven only by the mighty dollar and is allowed to continue breeding more and more Hounds only to be killed is beyond imagination. We can only hope that some real humane decisions are made for the future of the Greyhound Racing Industry , not just \$\$ for votes.

Rick and Tracey Mayne
