INQUIRY INTO SAME SEX MARRIAGE LAW IN NSW

heading for even greater family disorder

Dear Members of the NSW Inquiry on 'same sex marriage',

You will find, in a decade's time, that the social/family disorder state will be so devastating that you will regret deeply and be ashamed and guilty that you gave in to the loudly proclaiming group of gay people . I beg you to think ahead as the young would in any enterprise of great consequences in science or commerce,.. These people have chosen to live without the responsibility for bringing children into the world, who are our hope for the future. The same sex marriage that they want will NOT be seen nor BE as a commitment that should be inherent in the Marriage Covenant. Marriage is blessed by God and a same sex marriage NEVER could be. Please think of the children that maybe adopted by gay couple, or obtained by surrogacy. They need a real feminine mother and a real masculine father.
