Name: Name suppressed

Partially Confidential

Marriage was designed by God in His book the Bible, as a man leaving his mother and father and being bonded with a woman, together as one.

It is in this manner that children are made, brought up in a balanced environment of a father a mother as an example of how God designed them to live.

It is when we go against God's will that family's break down, both natural relations and gay ones, children do not see how relationships are designed to be, confusion sets in and a generation and beyond is created of very broken people.

This is my greatest fear and should be yours too.

Please stand for the true meaning of marriage as God intended, and God willing our future will be brighter.
