**INQUIRY INTO MANAGEMENT OF PUBLIC LAND IN
NEW SOUTH WALES**

Name: Ms Lorraine Williams

Date received: 30/08/2012

Conservation areas are for the preservation of natural ecosystems & are vital for the health of the whole country. They are also areas of cultural significance for both indigenous & non-indigenous Australians. They are vital for tourism & the economies of many small towns & country regions.

I strongly oppose any activity in these areas that will lead to their degradation. This includes agriculture, grazing, logging, shooting, 4-wheel driving, horse riding & motor bike riding.

The NSW government has an obligation to protect biodiversity. It alarms me that this Inquiry is chaired by a member of the shooters party & that it's terms of reference are highly skewed in favor of economic interests.
