

INQUIRY INTO SAME SEX MARRIAGE LAW IN NSW

I submit that marriage is a Federal, not State, issue, so it is a waste of effort and time to even legislate on this. Such issues should be decided in the Federal Parliament.

My view is that marriage validates the committed union of a MAN and WOMAN. Any other combination can be a partnership but not a marriage. Also, mothers and fathers share different but complimentary roles, enabling children to develop a balanced identity and confident personality.
