## **INQUIRY INTO COAL SEAM GAS**

**Name:** Mrs Jane Stevenson

**Date received:** 6/09/2011

---

Coal seam gas (CSG) is already outmoded technology. Regardless of how easily it might be 'harvested' it is still a polluting fuel.

I require MY government to do a whole lot better than to endorse coal seam gas.

I require MY government to ban the coal seam gas industry before it even starts ... THE RISK TO OUR FOOD, OUR DRINKING WATER, OUR FARMLANDS, OUR BUSHLAND and OUR HEALTH is too great. I ask that our government withhold approval for CSG mining and DIRECT that the dollar investments the CSG companies are prepared to make into CSG extraction be spent instead on development of non-polluting energy sources such as photovoltaic, solar thermal, wind and wave energy etc.
