**INQUIRY INTO MANAGEMENT OF PUBLIC LAND IN
NEW SOUTH WALES**

Name: Mr John Walker

Date received: 26/07/2012

There needs to be a change of emphasis in relation to National Parks so that people of all ages are encouraged to utilise them. The current management philosophy seems to reflect a lock up/keep people out. Needs to be recognition of the fact that an aging population requires greater vehicular access. Parks are for all and a large group - the aging are increasingly being excluded due to access issues. Encouraging people to use N.P's ensures they are valued by future generations
