Hi,

As a regular recreation user i am discussed and feel this is a disgrace

We are unique as Australia to be fortunate to have this gorgeous

Bush, State forest, National park etc and we should all be able to use

it... I often go into da bush with family and can't even imagine what

life would be like without being able to go in da 4WD or for a trail

bike ride with my family and friends...

As for damage to enviroment etc i beleive this is being "exagerrated"

tremedously!! motorbikes don't do bugger all damage to da bush

It seems the powers to be want to take away our freedom

to enjoy using our bush to 4wd and ride our motorbikes

Isn't it a good idea to keep da tracks well used in case of fire etc

Could u imagine if u shut all these areas down and after years and

years of thick growth with be a huge fire risk if it was to ever

take off as a bush fire u would have no access etc etc

And lastly what about our future for our kids no playin in bush

recreating as such we already have huge dramas with obesity

in children in this stone age...

I am totally against shutting down our natural unique land

for recreational use and believe this is a disgrace to try and do so

As a lover af Australia and the beautiful land (state forest Nat Park

we have at our feet) I hope u people see sense and realize

this is ridicoulous to take away our freedom and our lovely areas

by not allowing us to access by (4WD or on our Motorbikes)

Taken this away from the people who love Australia....

for this to be done It's simply "DISGRACEFUL"

LETS HOPE COMMON SENSE WILL PREVAIL!!

You as the Government should not lock us out of our own Land

Regards
