30TH JULY 2013

PARLIAMENTARY INQUIRY  
INTO AGISTMENT OF  
HORSES AT YARALLA  
ESTATE  
**SUBMISSION**

I'm writing to you to let you know that I'm extremely disappointed with the removal of the horses and public access to the Yarralla Estate. They have been an important part of the community and neighbouring visitors for almost 100 years, your extremist right wing approach to remove these peaceful creatures has directly annoyed and upset children, family who use to visit on multiple occasions and nation as a whole.

Public access to the estate help bring medical relief for those who are suffering in physical and mental pain as well as the patients in Concord Hospital, as you can see it helps everyone from young to old for all people from all walks of life to enjoy.

In the early 1900's at the end of Glebe Point Rd there was an industrial estate that had an old sawmill and chlorine chemical factory until the State Labour government at that time decided to convert it into the 1988 Bi-centenary Park which to this day hundreds of people enjoy every day. So why not do the same with Yaralla Estate for everyone to enjoy for the next hundred years.

Just want to say thanks for taking time to read my submission.

Kind Regards,  
Claude Stanizzo
