INQUIRY INTO GREYHOUND RACING IN NSW

Name: Ms Amee Dixon

Date received: 5/11/2013

Dear Director,

The Greyhound Industry is a shameful and cruel sport which harbours many animal abusers. The greyhounds are treated poorly and suffer great trauma and stress under the conditions they are put in. I'm a greyhound owner i rescued my boy from a pound after being dumped. i see many greyhounds come into the pounds after they are discarded others will have a much worse fate. They are beautiful animals and do not deserve to be raced than discarded like trash. the industry needs a big overhaul and what is happening can not be swept under the rug. Please do the right thing.

Sincerely,

Amee Dixon
