Subject:

Summary

Trevor J. Pike.

26/10/05

The General Purpose Standing Committee No 4
of the NSW Legislative Council,
Parliament House,
Macquarie Street,
SYDNEY 2000

Dear Sirs and Madames;

Re: Bonville Pacific Highway Upgrade – Bonville Highway Upgrade

Alternative Motorway Plan – Bongil Bongil National Park

Please find attached here-to a copy of my recent submission to Hon. Bob Debus MP,
Minister for the Environment.

Also a copy of Figure 3.3 from RTA Representations Report 1999. This figure is a
cynical and unethical Miss-representation of the 'BEC Alternative Route'

I am the sole author of the 'BEC Alternative Route' submission to the RTA. I seek leave
to present to your committee, (at its Coffs Harbour hearings), a detailed explanation of
the significance of the RTA's miss-representation of my proposal and their spurious
arguments against adopting the 'environmentally friendly' eastern route for the proposed
Motorway development through Bongil Bongil National Park.

I also wish to present all of the information contained within the attached submission to
Bob Debus to your committee.

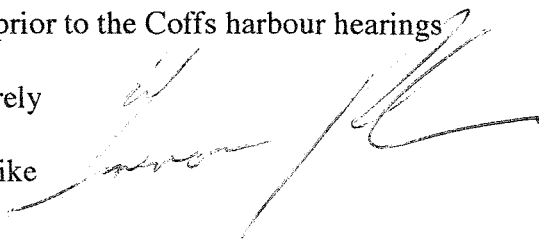

I will prove to your committee that the RTA only pays cynical 'lip-service' to
environmental and conservation considerations.

Thank you for your attention to these matters.

I trust that your committee will make itself familiar with the details of the attached
submission prior to the Coffs harbour hearings

Yours sincerely

Trevor J. Pike

PS. You may consider setting aside
time to visit this site during
your visit to Coffs Harbour.
I would welcome an invitation to guide you.
