

INQUIRY INTO GREYHOUND RACING IN NSW

Name: Ms Gillian Dent

Date received: 29/10/2013

Greyhound racing has completely lost any ethics it may have had with its inception. It is an activity enjoyed by few in the mainstream and often managed by disconnected owners and trainers with only thoughts of finding the fastest dog and making the most money out of it. The consequence of this is the appalling 'wastage' of perfectly healthy animals just because they can't run fast enough. I would like to see greyhound racing banned in the future, in the meantime the strictest of conditions and fines should be imposed with regulations so tight as to discourage more people into the industry.
