INQUIRY INTO EDUCATION AMENDMENT (ETHICS CLASSES REPEAL) BILL 2011

Name: Ms Naomi Ullmann

Date received: 23/02/2012

I urge you not to repeal the ethics classes in schools. This is about us having a choice. Some parents would like their children to learn scripture, but for some, like myself, scripture is not relevant. In addition, we come from a Jewish background, and as we live regionally, I doubt there would be a Jewish scripture teacher available. Why should my daughters have to miss out on learning about the deeper aspects of life?
