Hello Shufang,

I have some more updates on the BER situation at our school. We are now experiencing some damp, and mould has been forming on the ceilings. These have been cleaned up, but we are concerned about the health of some of our kids. We have quite a few asthma sufferers and we once had airconditioning, however this has not been included in the new buildings and we feel it compromises those kids during the severe wet periods typically experienced in this area.

I thrust this information will be added to my submission.

Thank you . Regards

Debora Elliott.
