Partially Confidential

I like where I have been living since May 1972. All the neighbours got along well, until fifteen years ago.

Forty years ago two men managed the entire \_\_\_\_\_ the area was well cared for. Maintenance was good. Security was good and neighbourly. I was working at the time and wages changed, there was no problem with accurate rent changes.

Between 2000-2012 \_\_\_\_\_ have gone downhill. No initiatives by HNSW or residents to continue to make the area presentable.

Forty years on no care is shown by HNSW, more CSOs, more mail not signed with threats of eviction included if we don't follow.

If I have a problem and report it to housing, I get a letter from them saying it is unfounded. They are saying that, I am a liar!! I have been bullied by \_\_\_\_\_

The Privacy Act has been violated by \_\_\_\_\_ (who is not the CSO for this area) telling another tenant my name and the issue.

Over four years ago, I reported the dangerous walkway in front of my building to \_\_\_\_\_ (due to the fact the ambos couldn't get the gurney through the sand) and nothing has been done to date.

Drain pipes outside #3, cement broken at bottom of pipe. Remains broken and clogged.
