Dear Director,

Thank you for taking the time to investigate the goings of this industry.

These dogs are going thru horrific torture.

Some thru neglect, torture and death if not making the cut for racing and the others thru being the dogs who do indeed race being drugged, abbusively trained and neglected.

Alot of these dogs are denied any form of kindness and kept in horrible, cold and tiny in closures for 23 hours a day.

Please take the time to help protect these beautiful creatures and give them some rights.

Thank you,

Sincerely,

Shannan Kiss
