Subject: Lane Cove Tunnel Inquiry
CC: <north_shore_bike@yahoo.com.au>

I commend the proposed tunnel to the extent only that it will provide a 7.5km long cycleway from Naremburn to North Ryde. The cycleway will have the following benefits:

1. Healthy, productive, fit and energetic people make for a productive Economic and harmonious society.
2. As working hours are extended in response to competitive pressures, many people get their essential exercise as part of their commute to and from work.
3. The new cycleway will see an significant increase in both pedestrians and cyclists commuting to work.
4. The lower north shore will become even more desirable to live and to work, and will become a model for the more extended areas of metropolitan Sydney.
5. Health and Safety will be improved for all users of the infrastructure, motorists, pedestrians and cyclists.
6. The cycleway will relieve the increasing pressure on government to provide other more expensive modes of public transport, as petrol prices inevitable rise to \$2 per litre (\$100 per barrel).
