

INQUIRY INTO GREYHOUND RACING IN NSW

Name: Name suppressed

Date received: 18/10/2013

Partially Confidential

I was once again alarmed but not surprised at the corruption and cruelty of yet another 'racing industry' involving animals.

It's time to see a much greater accountability and management by owners, trainers and the racing industry, to ensure the protection of these animals.

*Doping needs to be stopped

*Euthanasia even when done humanly is not a solution to over breeding. Breeding should be controlled and limited

*Serious penalties and jail sentences for the people who are found guilty of corruption and cruelty.

*Independent auditors who cannot be influenced by the industry.

*Regular investigations by animal welfare groups should be mandatory.
